

# MOLMO ONE LANGUAGE PROFILE

## SANDAUN PROVINCE, PAPUA NEW GUINEA

The **Molmo One** (oh-nay) people (aun) live in the mountains of Sandaun Province of Papua New Guinea. Molmo One communities are surrounded by four related language groups (Seta, Kabore One, Inebu One, and Southern One). They have nearby water sources.

Currently there is no medical care available in the

### Villages: 3

Christian Brethren Church, Israel Ministries, PNG Bible Church

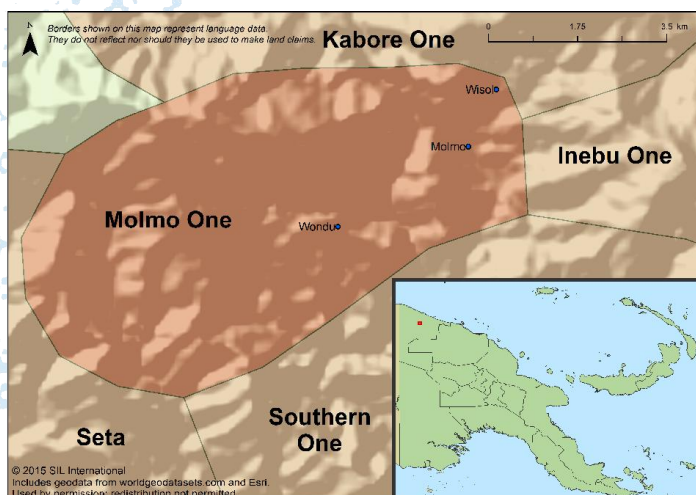

area. They do have an aid post building (for medical purposes), but there is no one to diagnose patients or dispense

medicines. When people are sick, they usually stay in the village and use different remedies found in nature, including papaya and the noni fruit. The closest hospital is a one to two day walk away.

This candle tree is in the Molmo One area. The sap from the candle tree can actually be lit and burned like a candle. They use the wax as a light source.

In 2015, four Molmo One speakers came to Wewak to receive training in the Oral Bible Storytelling (OBS) workshops. People are eagerly listening to the stories and learning more of what God wants for their lives. *As the OBS workshops progress, how will these stories help the Molmo One be a bright candle to show Christ's love to those around them?*

## PRAYER ITEMS

- Pray that more people would see their need for Christ and become involved in the churches.
- Pray for the youth to turn to God as they are struggling with addictive behaviors.
- Pray for a closer medical facility so they don't have to travel so far or, at least, someone who can man the current aid post.
- Pray that the primary school could be finished, so the children could continue their education after grade three.
